

Technical specification for end users of skyDSL Box

dimension (mm)	186x127x58 (with foot) 186x120x32
weight	app. 450 g (+ power supply 150g)
air humidity	0-80% (not condensing)
temperature of operation	5 – 40 degree Celsius
power supply	12V power supply (included) input power range: 110-240V
power consumption (max.)	25 W
power consumption without support of external devices	8W
connector ports	power supply IF connector for satellite antenna Ethernet USB ISDN Modem
Ethernet	RJ45, 10/100Mbit, Fast Ethernet
USB	2x Type A
ISDN	RJ45, ISDN-S0-Bus
Modem	RJ11
IF connector for satellite antenna	F-connector (female), DVB-S, DVB-S2
Tuner	DVB-S, DVB-S2
Modem	V.92, V.90, V.44, V.42, V.42bis, V.34
USB	2x Host, USB 2.0, Low-, Full- and High-Speed, max. 600mA for total power supply support for attached devices
